No. CLE/1/ID(114)/74

The following Award given by Shri Visvonata Rau Valaulicar, Superintending Surveyor of Works, Public Works Department, Altinho, Panaji, Goa, on an Industrial Dispute between the Management of M/s. Zuari Agro Chemicals Ltd., Zuarinagar, Sancoale, Goa, and the workmen employed by them is hereby published as required vide provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947).

P. Noronha, Under Secretary, Industries and Labour.

Panaji, 8th November, 1974.

Arbitration award under Section 10(A) of the Industrial Dispute Act, 1947 in respect of dispute between the Management of M/s. Zuari Agro Chemicals Ltd., Zuarinagar, Sancoale Goa and their workmen

Present:

Shri Visvonata Rau Valaulicar, Superintending Engineer, Public Works Department, Panaji-Goa.

Parties:

(A) M/s. Zuari Agro Chemicals Ltd., Zuarinagar, Sancoale represented by:—

Shri B. A. D'Cunha, Personnel & Welfare Officer, M/s. Zuari Agro Chemicals Ltd.

(B) The Zuari Agro Chemicals Ltd., Employee's Union represented by:—

1. Shri S. B. Nadkarni, President of the said Union.
2. Shri S. P. Dubashi, Member of the said Union.

AWARD

By Arbitration Agreement published in the Official Gazette, Government of Goa, Daman and Diu, Series II dated 22-8-74 vide Government Order No. I/396/74-LAB/947 dated 6-8-74, parties above named, referred three specific issues to my

Arbitration under Section 10A of the Industrial Disputes Act, 1947. The agreement provides that the decision of the Arbitrator shall be binding on the parties.

The specific matters, in dispute, referred to my Arbitration and decision are as follows:—

- a) Suitability of the existing residential quarters of the Zuarinagar Township provided by the Management of M/s. Zuari Agro Chemicals Ltd., Zuarinagar, Sancoale Goa.
- b) Reasonable rent of the existing quarters.
- c) Standards of housing accommodation that should be provided for the various categories of employees in the Zuarinagar Township.

One of the terms of the Agreement, stipulates that the award is to be given within 60 days. Since, however, both the parties could not furnish information required by me, in time, it was mutually agreed to extend this time limit upto 5-11-1974.

The parties were asked vide this Office letter No. PWD/SSW/F. 264/759/74-75 dated 25-7-74, to present their written statements on the above case. The Zuari Agro Chemicals Limited Employee's Union hereinafter referred to as «Union» submitted their written statement on 27-8-74 while M/s. Zuari Agro Chemical Limited, hereinafter referred to as «Management» informed that they would submit their statement on receipt of copy of statement to be filled by the Union. This was agreed by me.

In the meantime, the site of the Factory at Zuarinagar was visited on 6-9-74 to see in loco the suitability or otherwise of various types of quarters provided for workers by the Management. The Management submitted their statement on 16-9-74.

The case was fixed for hearing on 28-9-74 at 10.30 A. M. in my Office in Panaji at which Shri B. A. D'Cunha appeared for the Management while Shri S. B. Nadkarni appeared on behalf of the Union.

On the basis of statement of claims put forth by the Union, the counter statement submitted by the Management and the points raised at the time of hearing, by both the parties I give following award:—

At the outset, it may not be out of place to mention the main cause that has led to present industrial dispute.

Working of factory of the Management at the Zuarinagar is in the nature of continuous process. The factory is in operation for twenty four hours and the workmen specially in production Department have to work in shifts round the clock. Because of this continuous operation, the workmen have got to report for duty on time not only for normal working but also to attend to maintenance and emergency work that may arise from time to time.

For this purpose one of the conditions of appointment service for workmen is that if the Management provides accommodation in the owned or leased premises, workmen should stay there. The rent charged by the Company for such quarters is at the rate of 10% of basic salary and dearness allowance. When the quarters are shared by more than one workmen the rent is charged at (i) flat rate of Rs. 20 for 'E' type quarter (ii) 5% of basic salary and D. A. for 'D' type quarters or (iii) Flat rate of Rs. 20 in the hostel type of accommodation formerly occupied by Japanese technicians.

It is the contention of the Union that the Management does not follow definite criterion in this regard and allotted quarters to different grades of employees and forced them to stay in the quarters stating that it was a make shift arrangement pending construction of new quarters after these employees were made permanent. The Union was not able to substantiate this claim except pointing out some stray cases which were attended to by the Management on special merits, which I find are genuine.

The Management denies that the quarters now allotted are on temporary basis and maintains that there is no reason or justification for a demand to change the present quarters.

Presently there are about 400 employees, in various categories, working at Management's factory at Zuarinagar. Out of these, generally craftsmen, technicians, shift assistants, shift engineers, master technicians, foremen and such other categories of staff as are essential for the running of the

Factory are required to live in the quarters allotted to them at Zuarinagar.

Details of quarters allotted to workmen presently by the Management are as follows:—

Type of Quarters	Number of such Quarters	Plinth area in sq. ft.	Cost in Rs.	Details of accommodation	Remarks
'D'	32	860	29,886.00	One entrance (open verandah), one living room, two bed rooms, one kitchen-cum-dining, W. C. & bathroom. 3 ceiling fans are provided in these quarters.	Allotted to Foremen, Supervisory staff and some essential non-technical staff.
'E'	50	540	10,211.00	One entrance (open verandah) one living room, one bedroom one kitchen-cum-dining, W.C. and bathroom. 2 ceiling fans are provided in these quarters.	Allotted to grades S2 and S3(T7).
'F'	48	283	6,301.00	One entrance (open verandah) one multipurpose room, one kitchen-cum-dining, W. C. One ceiling fan is provided in these quarters.	Allotted to grades W ₁ to W ₆ (T1 to T6).

In addition to these types of quarters, there are some quarters where the accommodation provided is of hostel type which is allotted to mostly bachelors.

In order to assist the residents of quarters to develop landscape/gardens in the space around their houses, the Management gives a monthly gardening allowance in addition to fixed subsidy towards initial expenses. Against this background, the main issues are considered as follows:—

Suitability of existing quarters.—So far as the first issue regarding suitability of existing residential quarters is concerned, following points arise for consideration.

Suitability or otherwise of an accommodation can be judged best by comparison with norms that might have been fixed for the purpose. So far no such norms have been fixed by any statute. Nor do they form part of service conditions that have been agreed upon the two parties. Suitability is a broad concept which allows considerable latitude in the variety, range and standards.

It is the contention of the Union that the quarters allotted to different grades of employees are not suitable and that their location is unhygienic. The Union has not adduced any justifications to their claim that construction of quarters should follow norms laid down by the Government of India for its employees vide its Office Memorandum No. 1702(3)/66-w dated 6-2-67 while their claim that quarters should have comparison with quarters of similar type of industries like SPIC, GSFC deserves consideration. Regarding unhygienic conditions, the Union has pointed out that (i) Construction of all the three types of quarters is defective, the main defects being leakages through roof, dampness through external walls and the door shutters being not adequately strong and safe (ii) the location of 'D' type quarters suffers from hazard of bad smell of ammonia from effluent discharged in Bisso reservoir (iii) the location of 'F' type quarters is far off from factory and beyond easy walking distance (iv) the level of general ground around 'E' type quarters is almost same as that of floor inside with the result that there is excessive humidity inside these quarters and (v) the 'E' and 'F' type quarters have Asbestos Cement sheet roofing which make the atmosphere inside these quarters hot.

At the time of site inspection, it was verified that most of the defects in construction, like leakages through roofs and wetness through walls were being attended to and the Management assured that before next rainy season all these defects would be rectified.

As regards the pungent smell hazard, the Management stated that at the time of pumping of effluent some smell was there but that steps were being taken to minimise this defect. I do not think that the quarters are unsuitable on this count. However enquiries were made with the Factory Inspector in this connection and it is learnt that the problem of pollution in and around the Factory is being studied in all its aspects by a Committee appointed by the Government and

depending upon their recommendations, location of future quarters may be decided upon. So far as location of 'F' type quarters is concerned, I do not consider that they are very far off considering the future expansion of factory. Presuming that the remediable defects in these quarters will be attended to very shortly I find that while the quarters of 'D' type are suitable, those of 'E' and 'F' type need some modifications. These are i) Construction of a partition wall in the bed-room of 'E' type quarters so as to create a passage between the bed-room proper and bath-room and W.C. so that access to these latter can be secured without disturbing privacy of bed-room. False ceiling, should be provided in the bed and living rooms. Levelling should be done of ground around these buildings so that floor level inside remains at least 30 cm. higher than outside ground level. (ii) Provision of false ceiling in bed-room of 'F' type quarter, replacement of existing main door by a panelled door and replastering of walls inside where the plaster has peeled off the walls.

After these repairs are carried out, windows and door shutters of all quarters should be repaired wherever necessary and all the quarters should be painted inside—water bound distemper for 'D' and 'E' type and white lime wash for 'F' type and outside by suitable colour wash.

So far as suitability of quarters is considered vis-a-vis common facilities or general amenities I find these are inadequate. The Management should construct a shopping centre where all types of provisions can be obtained. Existing arrangement is not adequate. Likewise there should be a better building for health centre to which a dispensary should be attached. There should also be a primary school within the area.

The Management is already having a club, an indoor badminton and table tennis court and an open air theatre. These amenities are fairly adequate.

In addition to these facilities which should be common for all types of quarters, a small children's park should be constructed near each colony i.e. one for 'D' type quarters, one for 'E' type quarters and one for 'F' type quarters.

Suitability of these quarters, in the final instance, cannot be decided without first establishing norms as already pointed above. For that matter, the issue at serial number three pertains to this subject. This however is a long term objective, for seeking solution of which the financial side of the problem has to be kept in view. In my opinion, therefore, the quarters of 'D', 'E' and 'F' type, after all the repairs are carried out, would be suitable for being allotted to categories of staff to whom they are presently allotted.

Reasonable rent.—Cost of construction being what it is to-day, and increasing at a galloping rate for number of reasons, reasonableness of rent cannot be worked out straightway based on cost of construction as is done in case of the

standard rent that is required to be statutorily fixed for the purposes of Rent Control Act.

Based on the figures of cost of construction furnished by the Management, which I find acceptable, except for 'F' type quarters, the standard rents for these type of quarters are given in Annexure I.

For subsidised industrial housing scheme framed by the Government of India, the subsidised rent is worked out taking a subsidy of 50%. The reasonable rent worked out on this bases for types of quarters under consideration are given in this Annexure. However it may be noted out that this subsidy in the scheme mentioned above is applicable to persons having income upto Rs. 350/- beyond which they have to pay more rent.

The deduction of 10% of basic pay and D. A. by way of reasonable rent for these quarters, as is being done by the Management, is considered acceptable, except that a rebate of 2½% may be given to allottees of 'E' and 'F' type until all the repairs suggested above are carried out. *Standards of housing accommodations that should be provided for the various categories of employees in the Zuarinagar Township.* While the submission of the Management that a reference to standards of a accommodation laid down by the Government of India for its employees or to those of SPIC and GSFC is out of place

without going into other conditions and purposes of such companies is acceptable the fact remains that quarters constructed by the Management are not allotted to employees at their volition but some of the employees have to stay in them compulsorily. This being the case, I feel it devolves on the Management to define which categories of staff are required to stay in the Factory precincts and then provide accommodation according to scales given in Annexure II.

As pointed earlier, the financial side of problem and other factors have to be kept in view while seeking a solution to this problem. Therefore, a time limit of 5 years is considered reasonable within which housing may be provided by the Management to the employees who are required to stay near Factory, as per scales suggested.

Allotment of the quarters, to permanent employees once these quarters as per suggestions are built should be done on basis of their pay and allowances as is being done now without considering their marital status, unless the allottees voluntarily agree to share accommodation. Trainees, however, may be given accommodation on sharing basis.

Visvonata Rau Valaulikar.
